

BaltimoreBeach

**copper
union**

We are pleased to share that Copper Union will be carrying on beach volleyball in Baltimore and they have our full blessing and best wishes as they take the reins. Their plans are to offer leagues, tournaments, drop-in play, and clinics with a goal to continue building on what Baltimore Beach created, a community that all of you grew into a regional institution

Your enthusiasm, sportsmanship, and friendships made these past 25 years incredibly meaningful for us. Thank you for your long-time support and loyalty. Over the years we've built countless relationships, and I hope to continue contributing when I can—through introductions, meet-and-greets, and the connections we've developed along the way. Mostly, though, I'm looking forward to the occasional visit back—catching up with many of you, celebrating the friendships built over the years, and maybe even jumping into a game or two.

Thank you for being part of this journey with us. Baltimore Beach was never just a place to play—it was a community, and we were lucky to build it with you. Until then, I will continue to advocate for quality and growth in the sport and look forward to watching beach volleyball in Baltimore continue to thrive.

Sincerely,
Todd Webster
